

Accellos One Warehouse Collect Edition

SAGE MAS 200

EMPOWERING THE WAREHOUSE

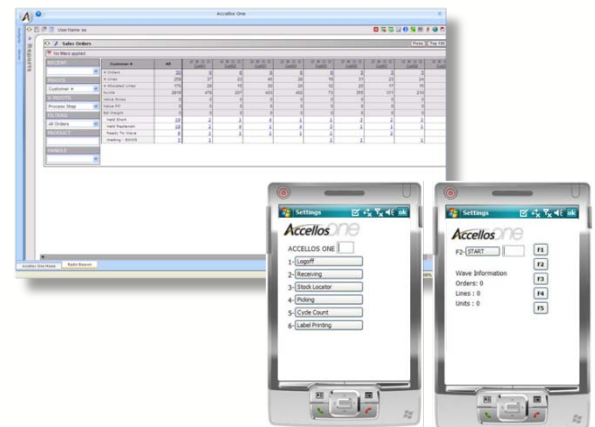

If your company is like most, the warehouse is where the action is. It holds your single largest asset. And, it holds the keys to your overall customer satisfaction.

It is not just a simple spot to store inventory anymore. Your customers, vendors and partners are placing increasing demands upon you. They're looking for special packaging and handling, unique labeling to meet their requirements, electronic visibility into product movement and a limitless variety of other specialized requests.

At the same time, you're trying to do more with less. Tighten control on your inventory. Avoid shrinkage. Maximize the utilization of your labor force. Improve the accuracy of your shipments.

Seems impossible sometimes – especially when the only solution is complex software that might be more than your company can consume.

Accellos can help. We've built our Collect Edition to be that special blend of simplicity and sophistication that can enable your company to accomplish both of your goals – providing excellent customer service and controlling your overall costs.

"Most companies today struggle to achieve true efficiency in their warehouse operations. For many companies it is a fight to just get the right product out of the door on time."

Ian Hobkirk, Aberdeen Research

Put your warehouse to work for you...

TIGHTEN CONTROL

Accellos One Warehouse provides you with the tools to maintain better inventory accuracy minimizing writedowns and writeoffs. To insure compliance with your customers labeling requirements. Improve your control in these and many more key areas of your business

MAXIMIZE EFFICIENCY

Leverage our advanced processes to improve your picking and receiving functions. To eliminate manual order checking. These are just a few areas where Accellos One Warehouse helps your team gain efficiency and effectiveness.

IMPROVE VISIBILITY

Accellos One Warehouse's web-centric design gives you the ability to allow internal and external users visibility into the status of warehouse operations. Providing visibility creates competitive differentiation for your business that drives ROI.

AVAILABLE ANYWHERE

Warehouse Suite by Accellos' browser-based design makes it simple to use regardless of location. We've made it very familiar and intuitive to learn how to manage:

- Order allocations
- Simple warehouse transfers
- Wave planning
- Management reporting

FLEXIBLE HANDHELDS

Warehouse Suite by Accellos puts the power of the system in the hands of your warehouse workers in a performance driven user experience designed to effectively accomplish:

- Picking
- Receiving
- Locating Stock
- Cycle counting
- Physical count
- Lots/Serial tracking

SEAMLESS INTEGRATION

Warehouse Suite by Accellos has been designed using a services-based integration framework that makes it simple to communicate with your:

- Sage MAS 200 ERP system
- UPS/FedEx/DHL/USPS system
- RFID labels and portals
