

TIME AND BILLING SOLUTIONS

for Sage 100cloud / Sage 100 (formerly MAS 90)

TIME AND BILLING SOLUTIONS

Time and Billing Solutions provide the tools that professional service companies need to bill time and expenses easily through Sage 100cloud/Sage 100. Because Time and Billing Solutions are embedded in and fully integrated with Sage 100cloud/Sage 100, department managers can review and approve time and expense entries using a familiar interface, and your company can seamlessly push time/expense data to multiple modules, including Accounts Receivable, Job Cost, Payroll, and Sales Order. This level of integration increases the overall efficiency and accuracy of the time, billing, and analytics process, reduces the amount of time from when your employees work to when you can bill your clients, and allows you to focus on what is important – your clients.

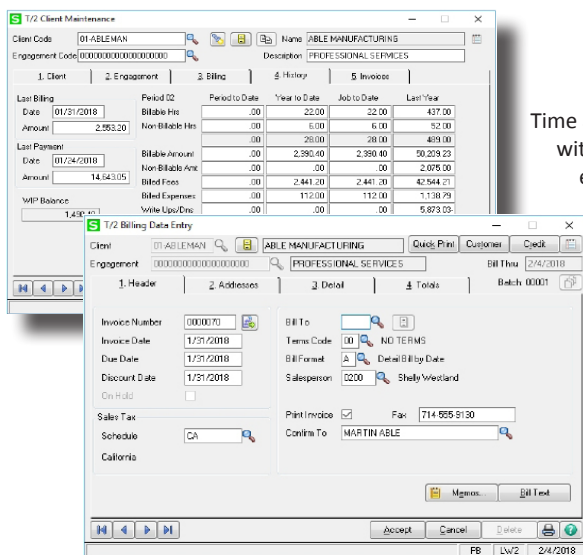

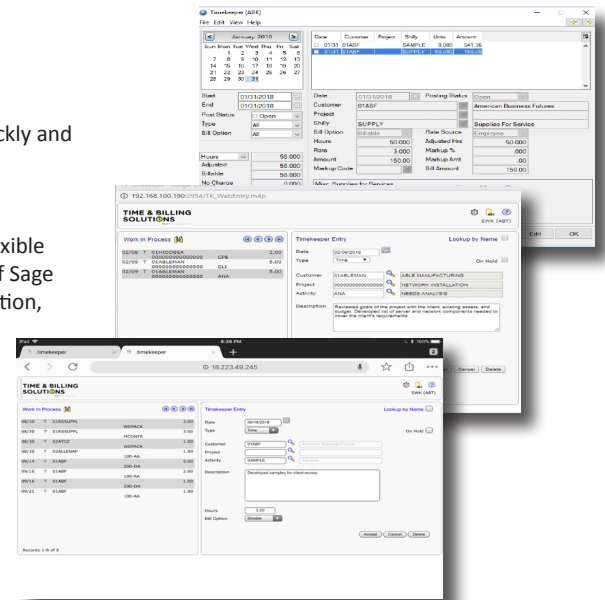

TIMEKEEPER

Time and Expense Entry - Anytime, Anywhere

Timekeeper provides your employees with the tools needed to quickly and accurately record time and expenses incurred when working on projects for clients - anytime, anywhere.

Available in three formats, Timekeeper provides convenient and flexible options, so your employees can enter time and expenses outside of Sage 100cloud/Sage 100 in real-time using our provided desktop application, remotely on your laptop so you can sync your time and expenses when you return to the office, or via your web browser/tablet device over the web.

TIME AND BILLING PROFESSIONAL

Accurate Bills - On Time, Every Time

Time and Billing Professional provides professional service companies with the tools needed to easily record hours employees worked on each project, so you can generate detailed and accurate invoices quickly using "common data," which reduces the need to maintain duplicate sets of data or third-party configurations.

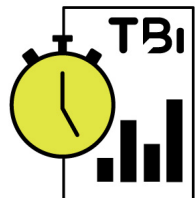

Time and Billing Professional is fast and easy to learn. With flexible functionality that lets you modify the names of common fields to match your company's terminology, support for multiple fee arrangements, and customizable billing formats, you can easily produce bills that meet customer-specific requirements. Time and Billing Professional is integrated with various Sage 100cloud/Sage 100 modules to meet your business objectives.

TIME AND BILLING INTELLIGENCE

TIME AND BILLING INTELLIGENCE

Customizable Dashboards to View the Information You Need

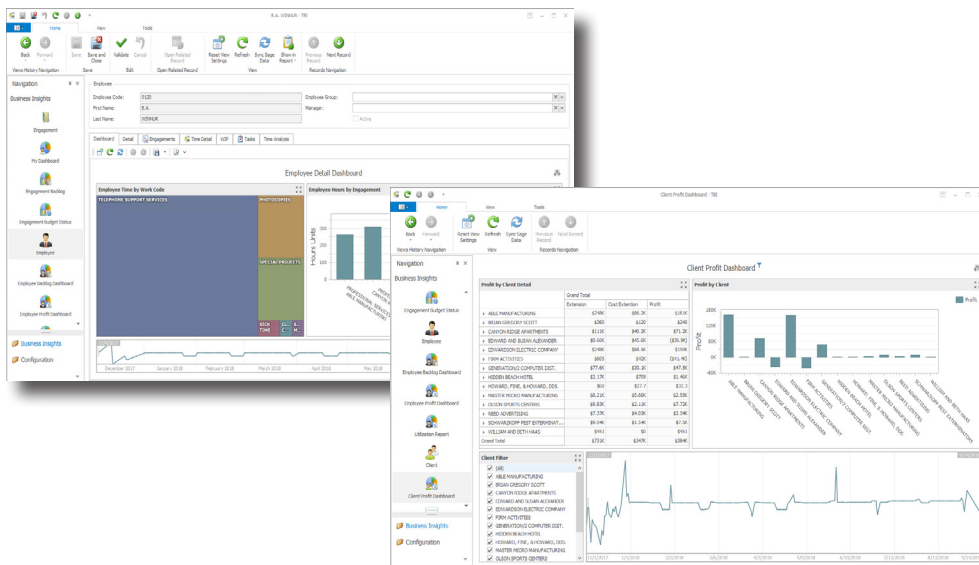

Time and Billing Intelligence provides the business intelligence tools that professional service companies need to manage their productivity and gain deeper insight into projects. It includes employee, client, and project dashboards that summarize time and billing data into actionable information.

With the information a click away, companies can better understand employee utilization and backlog, project budgets and profitability, and where service revenue is generated. Time and Billing Intelligence also includes tools that make it easy to manage clients, such as detail and summary views for WIP or the ability to see open invoices.

What's more, dashboards include simple filters to adjust the client, project, employee and time periods displayed; and it includes the tools you need to export data views to Microsoft Excel® where you can review and build your own reports from the data.

- **Project dashboards and views** allow you to understand the status, backlog, and the profitability of ongoing and completed projects.
- **Client dashboards and views** allow you to gain a holistic view of your clients, including their active/past projects, client profitability, work backlog, WIP, and even open invoices so you can better service your clients when talking to them about their projects.
- **Employee dashboards and views** allow you to gain insight into the projects and activities on which your employees are logging time, as well as their backlog, profitability, and utilization.

Time and Billing Intelligence dashboards can easily be customized or whole new dashboards created to provide you with the custom information you need. What's more, dashboards can include data not only from Time and Billing Solutions, but Sage 100cloud/Sage 100, many external third-party databases, and other data sources as well!

Maximize Your Time and Billing Process

Time and Billing Solutions can be fully personalized to meet your exact needs – with customized dashboards, fields, codes, and more.
