

The easiest and most powerful QuickBooks, ever.

QuickBooks Desktop Enterprise 19.0 gives you the tools and confidence to grow your business.

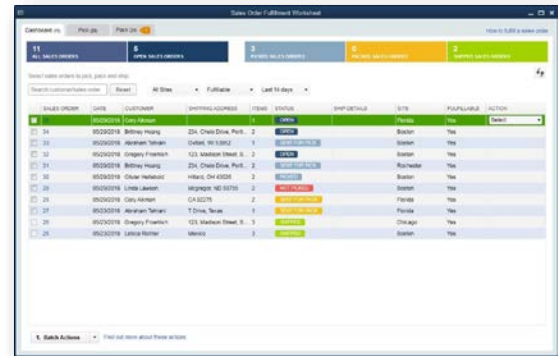

New features for QuickBooks Desktop Enterprise 19.0:

Enhanced Pick, Pack, and Ship

[Platinum only; Not available in CA or UK]

Faster and reliable Pick, Pack, and Ship process helps you with timely and correct shipments, all from a central dashboard.

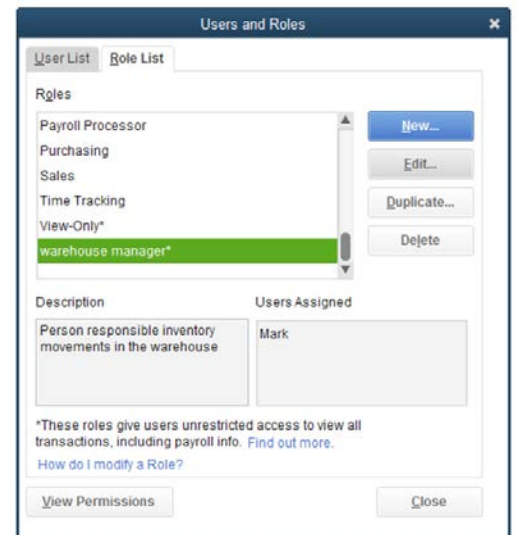

- Easily process and track sales order fulfillment from a central dashboard.
- Real-time warehouse update via mobile integration helps you continuously track order fulfillment progress.
- Easily print shipping labels from a central dashboard and mark orders as "Shipped" using a toggle button.
- QuickBooks-native solution, so you know it works seamlessly with QuickBooks.

Manage Payroll Permissions

[Not available in UK]
Definitive permissions for payroll and all data sets help you ensure only QuickBooks users with explicit authorization are able to view transactions and payroll reports.

- Make sure that only employees with explicit payroll permissions in payroll reports are able to view transactions.
- Explicit permissions to view payroll and all reports help prevent access by unauthorized personnel and protect your sensitive information.

Plus new features available in QuickBooks Desktop 2019

- Invoice Status Tracker
- Transfer Credits
- Check to Bill Pay
- Data File Optimization¹ [Not available in CA or UK]
- Easy Upgrade and Move QuickBooks to another PC [Available on QBDT Pro/Premier Plus subscriptions; Not available in CA or UK]
- Intuit Data Protect² [Not available in CA or UK]
- Inactive Items in Inventory Reports
- Robust IIF Imports³

¹File size reduced by Data File Optimization feature reduces file size by removing audit trail of historic transactions and a few tables from the database that are not used or needed by the company file.

²Intuit Data Protect uses latest online version of data protection/backup software that optimizes backup speed.

³The new IIF import applies and data validation logic applied when accepting new data via UI, hence closing the backdoor entry for bad data.

QuickBooks Desktop Enterprise 19.0 Feature List by Version Year

	19.0	18.0	17.0
