

Ascentis HR

A-la-carte full suite human capital management technology

Empower organizational growth with the centralization automation and accuracy of all employee data with Ascentis HR software. Manage and track employee information throughout the entire employee cycle with our easy to use SaaS solution.

Increased Employee Engagement

Access all your employee-related information in one centralized portal. This branded, secure portal is configurable to support your processes and requirements.

Powerful Reporting Capabilities

Make data driven decisions for your company with customizable reports. Ascentis HR provides over 300 on-demand reports, point-in-time reports and configurable fields to ensure you can provide the information you need on the fly.

ACA Compliance Support

Track benefits affordability data to fully support ACA publishing and filing capabilities with the IRS. An ACA dashboard gives you confidence in your ACA compliance.

Comprehensive Benefits Administration

Automate employee eligibility and enrollment with powerful rules-based benefits engines that support a variety of plans.

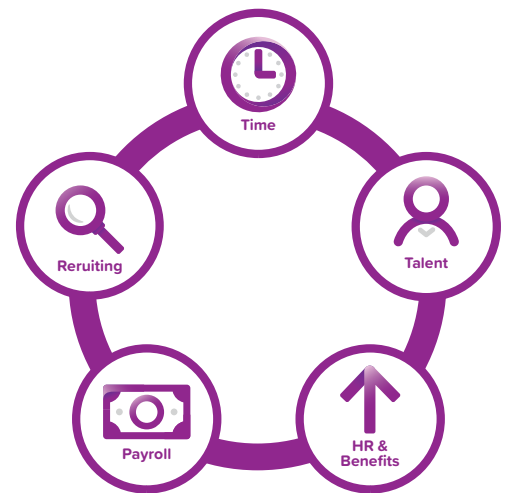

Innovative Communications

Quickly customize communications with employee groups or individuals via email. You'll always have a reliable history of content for reference.

Compliance

Never worry about compliance violations and reduce the amount of hours spent on reporting. Ascentis HR ensures requirements are automatically monitored and fulfilled through compliance automation with pre-set reports.

A-la-carte Full Suite Software

Start Anywhere. Add Anytime. Ascentis' industry-leading a-la-carte full suite human capital management (HCM) technology platform and workforce management solutions are supported by an ongoing commitment to delivering an unsurpassed client experience. Ascentis' technology modules work independently or together to meet the needs of each client, wherever they are in the HCM journey.
