

Fully Connected Shipping with Pacejet and Acumatica

Apply and leverage Fully Connected Shipping with Acumatica to strengthen your business and receive real-time connectivity to carriers, accurate reporting data, and business systems. Our platform is an adaptive solution that empowers shippers with rapid and innovative capabilities that foster growth.

Business Benefits:

- **Reduce shipping costs up to 30%:** Rate shop, from order or Acumatica shipment, across 65+ carriers to find the best price for any shipment. Capture and improve accurate billing information while using our carrier options to reduce shipping costs.
- **Faster fulfillment times:** Pacejet provides full visibility into your data, which will help reduce errors, increase shipping time, and help fulfill shipping orders quickly and efficiently.
- **Flexible process flows:** With options to either pack and ship in Pacejet, pack and ship in Acumatica, or pack and Acumatica and ship in Pacejet
- **Reduce shipping labor up to 80%:** Automate your workflows and reduce manual steps through improved capabilities like pack and ship, which are accessible either through Pacejet or Acumatica.
- **Native Acumatica integration:** Pacejet integration is built and maintained by Acumatica, ensuring “always current” certification and unmatched support from both Pacejet and the Acumatica team. A seamless integration to provide real-time connectivity and enhance your multi-carrier shipping strategy.
