**Avalara**
Tax compliance done right

Your complete tax compliance solution

Trying to keep up with all the demands of sales and use tax compliance can be hard, especially given how frequently tax rates and taxability rules change.

Powered by Avalara, the Sage Sales Tax suite of cloud-based tax solutions can help improve your tax compliance management.

Offload the complexity of tax compliance from end to end. Sage Sales Tax integrations are already built into the following systems:

- Sage 50cloud (U.S. edition)
- Sage 100
- Sage 300
- Sage 500 ERP

- Sage X3
- Sage Intacct

Automated solutions to support you through the tax compliance journey

GET LICENSED AND REGISTERED
Get help acquiring licenses and securing registrations when you trigger sales tax obligations in new states or expand across borders.

MANAGE EXEMPT SALES
Establish a system that enables you to verify, store, update, and access tax documents on demand, reducing your risk of paying back taxes and penalties.

CALCULATE TAX
Calculate sales and use tax and any specialty taxes such as VAT, GST, excise tax, lodging tax, communications tax, and more.

FILE RETURNS
Maintain tax compliance where you file—account for unique filing schedules, deadlines, forms, and formats for sales tax, VAT, and GST reporting.

The benefits of automating with Avalara

Avalara tax registration, calculation, filing, and document management products work together and scale with your business, helping you to maintain tax compliance as your business grows and evolves.

INTEGRATES WITH YOUR BUSINESS SYSTEMS

With prebuilt integrations and extractors, you can use Avalara as a single source of tax data across your system. In many cases, Avalara works within your existing dashboard.

TAX EXPERTISE FROM THE TAX EXPERTS

You didn't get into business to spend time on tax compliance. Let Avalara and Sage do the heavy lifting so you can focus on revenue generation, product development, and growth.

What customers are saying

Sage customers depend on Avalara to help them automate tax compliance.

> Everything's kept track of for us, and we don't have that extra work at the end of every month to file all of our returns. We just have to check what's in the system.
