AvidSuite for Sage

Seamless Payment and AP Automation Integrated with Sage 100 and Sage Intacct

Manually processing payments and invoices with inefficient workflows is both time-consuming and painful for AP teams, but streamlining the process in a way that integrates with existing business tools can provide significant relief.

AvidXchange automates the way companies manage their bills by providing approval workflows, electronic payments and seamless integration with Sage 100 and Sage Intacct.

AvidXchange offers users multiple payment methods that help them earn incentives on qualified e-payments. Significantly reduce your processing costs and time spent on processing payments and invoices by removing the paper—along with all the time and clutter that goes along with it. With AvidXchange, you're less than 45 days away from removing the paper and enjoying a more efficient payment and AP automation experience.

Ability to facilitate 100% of payments

24/7 visibility into payment and invoice status

Reduction in invoice processing costs

Benefits of AvidSuite for Sage

⚙ Reduced processing costs

→ Leverage a unified solution for both payments and invoices

📈 Scalable growth

→ API-enabled integration that extends well beyond the basics of AP, including support for custom dimensions

→ Unlimited users, workflows and storage

🔍 Improved Control and Visibility

→ Offer suppliers flexible payment options, including virtual card, AvidPay Direct, our enhanced direct deposit option, and check

→ Configure workflows to your current processes, including invoices linked to purchase orders with 2-or 3-way matching

→ A dedicated services team to enroll your suppliers and their preferred form of payment

"The implementation and the integration with Sage Intacct is so smooth Anyone who asks me about it, I tell them it's been just seamless. It's been so easy because you can just pop into the system and pull up an invoice. I was shocked."
